

Staff Training Schedule:

Below you will find the staff training schedule for the Spring 2016 season. You will notice that as part of our preparation for the new US Soccer mandates, we have changed the structure for this Spring.

As the entire country moves from the school year age grouping to a calendar/birth year designation this Fall, it has been decided that we will organize the staff training the same way. This will allow our staff seven training sessions with the Fall age groups as well as an opportunity for the players to begin training with their potential future teammates. It is the collective belief of the staff that this will give us a unique opportunity heading into the player placement process and allows our coaches the advantage of time & experience with those players that they will be coaching in the Fall.

Please feel free to direct any questions to your child's respective Director of Coaching;
